Attorney Docket No.: <u>DERN-00101</u>

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims regarding the present application. In reading this, text added by the amendment is <u>underlined</u>, and canceled text appears in <u>strikethrough</u> or in [[double brackets]].

- (Previously Presented) A method of marketing comprising the steps of: 1. 1 offering a reward to a first party in exchange for a recommendation of a 2 a. marketable entity, the recommendation comprising a forwarding of a first e-mail 3 message to a second party, the first e-mail message comprising a personalized 4 referral for the marketable entity and a first set of data, the first set of data 5 comprising a first serial number and a first URL link to a first Web site having an 6 offer to transact an exchange for the marketable entity; 7 correlating the first set of data in the first e-mail message to data within a 8 b. database, the data within the database comprising data relating to the reward 9 10 offered to the first party; updating the database with an e-mail address of a second party provided by the 11 c. 12 first party; forwarding the first e-mail message to the e-mail address of the second party, d. 13 wherein the marketable entity is selected from a group consisting of goods and 14 services; and 15 providing the reward to the first party if the second party transacts the exchange 16 e. for the marketable entity. 17
 - 1 2. (Previously Presented) The method of claim 1 wherein the step of forwarding the first e-2 mail message is performed by an automatic e-mail forwarding program associated with

(Previously Presented) The method according to claim 1 wherein the step of updating the 3. 1 database with an e-mail address of the second party is performed through an e-mail field 2 accessed by the first party through a Web browser. 3 (Previously Presented) The method according to claim 1 further comprising the step of updating 1 4. the database with an e-mail address of a third party provided by at least one of the first party 2 and the second party. 3 (Canceled) 5. (Previously Presented) The method according to claim 1 wherein the first e-mail message is 6. 1 configured to comprise a token in the form of a first icon, and the method further comprises the 2 steps of: 3 submitting the token to a field within the first Web site; and 4 a. retrieving a new token from the first Web site, the new token defined according to 5 b. updated data within the database. 6 (Previously Presented) The method according to claim 1 wherein the step of updating the 7. 1 database further comprises the steps of: 2 generating a second serial number; and 3 a. updating the database to authenticate the second serial number. 4 b. (Previously Presented) The method according to claim 1wherein the step of forwarding the first

2		e-mail message to the second party comprises the steps of:
3		a. forwarding the first e-mail message from the first party to the second party; and
4		b. forwarding an authenticating e-mail message from the first party to a provider of the first
5		Web site, the authenticating e-mail message comprising a first serial number and the e-
6		mail address of the second party, the authenticating e-mail message thereby enabling
7		the second party to access the first Web site and transact for the marketable entity.
1	9.	(Previously Presented) The method according to claim 8 wherein the step of forwarding the firs
2		e-mail message to the second party and the step of forwarding the authenticating e-mail
3		message to the provider are performed as the result of a single mail command initiated by the
4		first party.
1	10.	(Previously Presented) The method according to claim 9 further comprising the step of entering
2		an e-mail address of the provider into a field.
	11.	(Canceled)
1	12.	(Previously Presented) The method according to claim 10 wherein the first serial number
2		comprises the e-mail address of the provider.
1	13.	(Previously Presented) The method according to claim 1 wherein the step of offering a reward
2		to the first party is performed through a medium selected from a group consisting of e-mail,
3		Web site communication, FAX, pager, telephony, postal mail and hand delivery.

Attorney Docket No.: <u>DERN-00101</u>

14. (Canceled)

- 1 15. (Previously Presented) The method according to claim 1 wherein the first URL link comprises a unique URL address associated with a privilege of Web access intended for a specific party.
- 1 16. (Previously Presented) The method according to claim 1 wherein the first URL link is a general
 2 URL link to the first Web site, and wherein access to the first Web site is secured by
 3 presentation of the first serial number.
- 1 17. (Previously Presented) The method according to claim 1 wherein the first URL link is accessible through a token in the form of a first icon visible in the first e-mail message.
- 1 18. (Previously Presented) The method according to claim 17 wherein the first e-mail message
 2 further comprises a second icon for accessing a second URL link, wherein the first URL link is
 3 addressed to access information about the marketable entity and the second URL link is
 4 addressed to access information about a rewards referral program.
- 1 19. (Previously Presented) The method according to claim 1 further comprising the steps of:
- a. accessing the first Web site by the second party according to the first URL link of the first e-mail message;
 - b. transacting the exchange for the marketable entity by the second party; and
- 5 c. crediting the first party with the reward.

4

20. (Previously Presented) The method according to claim 19 wherein the step of transacting the

2		exchange for the marketable entity is performed online through the first Web site.	
1	21.	(Previously Presented) The method according to claim 19 further comprising the steps of:	
2		a. establishing a credit account for the first party within the database; and	
3		b. recording to the credit account the reward credited to the first party.	
	22.	(Canceled)	
1	23.	(Previously Presented) The method according to claim 19 wherein the step of crediting the first	
2		party with the reward further comprises the steps of:	
3		a. waiting a predetermined time; and	
4		b. electronically transferring a monetary reward into a reward target selected from a group	
5		consisting of a bank account, checking account, creditor, savings account, IRA, money	
6		market fund, and charity.	
	24.	(Canceled)	
	25.	(Canceled)	
	26.	(Canceled)	
1	27.	(Previously Presented) The method according to claim 1 further comprising the step of offering	
2		a reward to the second party in exchange for a referral for the marketable entity.	

Attorney Docket No.: <u>DERN-00101</u>

(Previously Presented) The method according to claim 27 wherein the offer of rewards to the 28. 1 first party and the second party in exchange for recommendations is metered according to an 2 algorithm, wherein the first party is granted a privilege of forwarding a greater number of e-mail 3 messages than the second party, each of the e-mail messages comprising a personalized referral 4 for the marketable entity and a set of data, the set of data comprising a serial number and a 5 URL link to a Web site having an offer to transact the exchange for the marketable entity. 6 (Previously Presented) The method according to claim 27 further comprising a step of 29. 1 forwarding a second e-mail message comprising a referral for the marketable entity from the 2 second party to a third party. 3 (Previously Presented) The method according to claim 29 further comprising the steps of: 30. 1 creating a referral lineage within the database; and 2 a. storing identifiers of referring parties within the referral lineage, wherein the referring 3 b. parties provide a personalized recommendation for the marketable entity to other 4 parties. 5 (Canceled) 31. 32. (Canceled) (Canceled) 33.

(Previously Presented) The method according to claim 30 further comprising the steps of:

2		a. accessing the first Web site according to the first URL link of the first e-mail message;
3		b. transacting the exchange for the marketable entity recommended in the first e-mail
4		message; and
5		c. rewarding select referring parties according to an algorithm.
1	35.	(Previously Presented) The method according to claim 30 further comprising the steps of:
2		a. analyzing data within the database; and
3		b. modifying a referral rewards program.
1	36.	(Previously Presented) The method according to claim 35 further comprising the step of storing
2		data relating to the reward and transaction for the marketable entity in the database.
	37.	(Canceled)
	38.	(Canceled)
	39.	(Canceled)
1	40.	(Previously Presented) The method according to claim 1 further comprising the step of securing
2		the database, such that the database is accessible to authorized personnel only.
1	41.	(Previously Presented) The method according to claim 1 further comprising the steps of:
2		a. issuing a unique access code to a vendor whose marketable entity is represented within
3		the database; and

4		b.	granting the vendor limited access to the database.
	42.	(Can	celed)
1	43.	(Prev	viously Presented) The method according to claim 30 further comprising the steps of:
2		a.	attempting to access the first Web site by an entreating party; and
3		b.	evaluating an access privilege of the entreating party to access the first Web site.
1	44.	(Prev	viously Presented) The method according to claim 43 further comprising the steps of:
2		a.	determining that the entreating party lacks the access privilege for access to the first
3			Web site; and
4		b.	denying the entreating party access to the first Web site.
1	45.	(Pre	viously Presented) The method according to claim 42 wherein the step of evaluating an
2		acce	ss privilege comprises the step of examining data selected from a group consisting of the
3		refer	ral lineage within the database and an identifier of the entreating party.
1	46.	(Cur	rently Amended) A method of marketing comprising the steps of:
2		a.	transacting an exchange a purchase for a first marketable entity by a first party;
3		b.	offering a reward to the first party in exchange for a recommendation of a second
4			marketable entity substantially similar to the first marketable entity to a second party
5			wherein the recommendation results in an exchange a purchase transaction; and
6		c.	forwarding an e-mail to a second party, the e-mail comprising the recommendation fo
7			the second marketable entity by the first party, an e-mail address of the first party, and

8			a URL link to a Web site having an offer to transact an exchange a purchase for the
9			second marketable entity, wherein the first marketable entity and the second marketable
0			entity are selected from a group consisting of goods and services.
1	47.	(Previ	ously Presented) The method according to claim 46 wherein the recommendation
2		comp	rises a discount for the second marketable entity.
1	48.	(Curre	ently Amended) The method according to claim 46 further comprising the steps of:
2		a.	accessing the Web site by the second party;
3		b.	transacting the exchange purchase for the second marketable entity by the second
4			party; and
5		c.	issuing the reward to the first party.
1	49.	(Curr	ently Amended) The method according to claim 46 further comprising the steps of:
2		a.	accessing the Web site by the second party;
3		b.	offering a reward to the second party in exchange for a recommendation for the second
4			marketable entity to a third party wherein the recommendation results in an exchange a
5			purchase transaction; and
6		c.	issuing the reward to select parties according to an algorithm.
1	50.	(Prev	iously Presented) A system for marketing comprising:
2		a.	means for accessing a database configured for storing data;
3		b.	a computer operatively coupled to the database, the computer configured to provide
4			access to the Web;

5	c.	means for offering a reward to a first party in exchange for a recommendation of a
6		marketable entity, the recommendation comprising a forwarding of a first e-mail
7		message to a second party, the first e-mail message comprising a personalized referral
8		for the marketable entity and a first set of data, the first set of data comprising a first
9		serial number and a first URL link to a first Web site having an offer to transact an
10		exchange for the marketable entity;
11	d.	means for correlating the first set of data in the first e-mail message to data within the
12		database, the data within the database comprising data relating to the reward offered to
13		the first party;
14	e.	means for updating the database with an e-mail address of the second party provided
15		by the first party; and
16	f.	means for forwarding the first e-mail message to the e-mail address of the second party
17		wherein the marketable entity is selected from a group consisting of goods and services
1	51. (Previous	sly Presented) The system of claim 50, wherein the system further comprises:
2	g.	means for accessing the first Web site by the second party according to the first URL
3		link of the first e-mail message;
4	h.	means for transacting the exchange for the marketable entity by the second party; and
5	i.	means for crediting the first party with the reward for the recommendation.
